Asthma
Himrod's Cure

The discoverer of Himrod's Cure was for twelve years a great sufferer with that terrible disease, Asthma, and for the past nine years wholly unable to engage in active business. After using every remedy that was offered to the public, receiving generally but little benefit, and in no case more than partial and temporery relief, he finally resolved upon a thorough personal investigation into the peculiarities of a disease which has forever baffled the best medical skill, and a series of experiments with a view to the production of an article which would prove to be an effectual cure.
After many trials and failures, he at last succeeded in bringing together the combination which is now offered to the public with the fullest confidence in its value as a cure. It has been thoroughly tested in many of the worst cases, and all converse with its merits unite in awarding to it the most unqualified praise.

Special Telegrams

London, April 24

Mr Gladstone has been charged by Her Majesty the Queen with the formation of a new Cabinet, and will take office as Prime Minister and Chancellor of the Exchequer

Associated Press Telegram

HAVAS' AGENCY

London, 24th.

The Beaconsfield Cabinet having resigned, the Queen has just summoned Mr Gladstone, and charged him to form a new Cabinet.

Paris, 24th.

In to-day's sitting, the Republican Deputy, Paul Bert, presented a Bill imposing military service (for one year only) on clergymen and schoolmasters. It was sent to a Special Committee.

London, 26th.

Mr Gladstone has accepted the charge of forming the new Liberal Cabinet. The principal portfolios are already distributed as follows—
First Lord of the Treasury and Chancellor of Exchequer—Mr. Gladstone.
Lord Chancellor—Lord Selborne.
Foreign Affairs—Lord Granville.
War—Mr. Childers.
First Lord of Admiralty—Lord Northbrook.
Secretary for Ireland—Mr. Farster.
Mr. Bright has been offered a seat in the Cabinet, and it is highly probable that he will accept.

THE RURAL EXHIBITION.

The attendance at the Rural Exhibition on Sunday was, for the first time since it opened, sufficiently numerous to rescue the Show from being termed a failure; and at 4 p.m. the grounds presented a gay and cheerful sight, contrasting strongly with their bleak and deserted aspect throughout the week. We should say that from 3000 to 4000 people were there on Sunday, and the very large number of private carriages that lined the street in front of the park proved that the aristocracy of Buenos Ayres took a greater interest in the Exhibition than the general public. The number of foreigners we noticed on the grounds was a redeeming feature, although the great absence of the Irish, English and Scotch sheepfarmers was remarked by every one.

The show of sheep was so ridiculously small, that the stranger who has never seen our camps, and forms his opinion of our pastoral industry by what he saw at the Exhibition, could never realize that a country that boasts of close on 70,000,000 sheep, and the richest and most prosperous sheepfarming community in the world, would make such a melancholy show as that which we witnessed at this Exhibition—109 *sheep and nine Exhibitors.* On the other hand, to judge the country by the horned cattle and horses exhibited, one would imagine that on every estancia in the country there were pure Durham bulls and the roughbred sire horses. The explanation to be given is as simple as it is humiliating. Our sheepfarming industry, we regret to admit it, is in the hands of men who have yet to learn that prosperity has its duties, and wealth and capital its obligations. The day, no doubt, will come when the sheepfarmers of the River Plate will understand that it is alike their duty as their interest to support these exhibitions; and no matter what the expense and the inconvenience, the best animals have to be sent forward from every well-managed establishment, if not to gain prizes, at least to cultivate a competition that will merit the name of a Fair. The show of sheep at this Exhibition was simply a farce, and yet, miserable as was the number of sheep exhibited, we verily believe it beat the attendance of our countrymen from the camp. Let us hope that next year the farmers will come to the front and prove to the breeders of cows and horses that whatever may be the difference of their capitals, their intelligence is the same.

To go through the catalogue page for page is an ambitious task, and we must leave it to others, for want of space. We believe that at no previous show have we ever exhibited such a number of prize fat cattle and horses, and that, atthe rate we are progressing in this line, there can be very little doubt that ample capital, combined with intelligence and a peculiarly favourable climate, is working out a development that in a very few years will change the whole character of the live stock of the River Plate. No one who walked down the stalls and saw the magnificent milch cows, bulls, heifers, hunters, race-horses and thoroughbred sires, can for a moment doubt this; and we here may note that what has occurred in the breeding of pure Negretti rams will probably also occur in the breeding of Durham bulls. Mr. Chas some years ago imported three of the best Negretti rams that could be obtained in Europe, at a cost of $75,000. Three years after their arrival at his estancia he was obliged to sell them, simply because their 'cria' bred on his estancia were even better animals than those he had brought from Europe. We saw the Negrettis he showed at this Exhibition, and we verily believe that there are not better or finer animals to be found at the very best establishments in Germany. Vivot's hunters would certainly attract notice at the Cattle Show in Dublin; whilst Mr. Church's Chocolate Cream and Plum-pudding, as samples of estancia fat cattle, showed what can be done as regards size and weight, which, after all, is the great object to be attained with the Durham and Hereford breeds. These are the animals which the Argentine Republic is destined to send to Europe some day, which is not distant. Plum-pudding is a white, fat cow, and took the prize; it was reared at the Estancia Las Barrancas, and not stall fed, but reared in the open camp, from whence it was brought in four months ago to prepare for the Exhibition; and we confess she is the finest sample of an estancia-bred fat cow we have seen in the Plate, and we congratulate Mr. Church on his well-merited prize.

Mr Norberto Quirno exhibited 16 animals and took nine prizes, which speaks for their quality. Mr Quirno informs us that for the last 20 years he has been refining his cattle breed on his estancia at Rojas, and for the last six years he has been refining the breed of horses and sheep at his chacra in Moron. He leaves next month on a trip to Europe and will visit all the great cattle and sheep-breeding establishments there.

A Russian horse, belonging to Mr Luro, called Lionbopeotut, attracted the greatest attention. The Earl, another magnificent horse, imported by Mr Fair; also Dasher, same owner; and Kinmont Willy, belonging to Mr Church, were greatly admired. Vencedora was considered the best Durham cow; and Nené the best Durham bull, one year old, 1,025 lbs. weight, bought, belonged to Mr Quirno, and both obtained prizes. Glenfinnon, a four year old thoroughbred, and Little Dot, a three year old mare, both imported from England by Mr Anderson, were also much admired; but, as it is impossible to enumerate all the animals, and still more difficult to select the best, we give the following list of the exhibitors, with the numbers of the animals exhibited, and reserve for to-morrow the publication of a complete list of the prizes and their winners:—

The foregoing shows that the whole burden of this exhibition has fallen upon 34 people who exhibited in all 267 animals, of which 111 were horses, 47 horned cattle, and 109 sheep; and the chief feature of congratulation and pride we felt in going over the Show was that all the best horses, cows, bulls, Lincoln sheep, pigs, agricultural machinery were all English. Mr Clarke of Quilmes exhibited some fine Brahma Pootra cocks and hens, and won several prizes. Mr Arenales exhibited some beautiful pigeons. Mr Shine some fine English rabbits; and Mr Miles a splendid dog.

Messrs Moore and Tudor won three prizes and one honorable mention for their splendid machinery. Mr Shaw also won three prizes, and Mr Schwartz prizes for his corn-sheller and patent boring-pump. Mr Ponsati's steam-kitchen was rendered doubly attractive as some of the new preserved beef of Sr Romany & Co., was cooked as puchero, and a better puchero we never tasted.

At 4 o'clock p.m. the ceremony of distributing the prizes was concluded. The bands struck up some stirring music, a cavalcade was formed and all the horses and ponies walked in procession around the grounds, the various steam engines for working the agricultural machinery had steam on, and the scene at the moment was particularly pleasing. The ground seemed to us to be as thronged as the Exhibition Gardens in front of the Trocadero, in Paris, on the 15th Aug. 1879. The show before us certainly possessed higher features of interest, and we left the grounds pondering on the novelty that at an exhibiton of such a deserving character and pregnant with such mighty results, the rulers of the country and the sheepfarmers were conspicuous for their absence. The special train that left the Central Station for the Tiro Nacional was crowded to its utmost, whilst the special train for the Exhibition had hardly a score of passengers. The Argentine may well exclaim

Non tali auxilio nec defensoribus istis.

A Western paper, describing the debut of a young orator, says that 'he broke the ice felicitously, and was almost immediately drowned with applause.'

SALTA RAILWAY INAUGURATION.

FROM CORDOVA TO TUCUMAN.

(Our Special Correspondent)

I wrote to you last from Cordoba, giving a slight sketch of the city and of our journey up to that point. The Ministers having resolved to prolong their stay there until the 17th, kindly gave us a pass to go on before them. We were accompanied by Mr. Gallenga, the *Times'* correspondent, who at the last moment resolved to make the journey: so at seven o'clock on Saturday morning, the 16th, we started for our final destination.

The Tucuman Railroad is on the narrow gauge system, being only one metre in width. The cars and locomotives are on the English plan, and we found them very hot and inconvenient compared to the American cars of the Central Railway.

As we leave the station we have a fine view of the 'City of Churches, which lies in a hollow beneath us. Soon we have climbed the 'sierra' which surrounds the city, and emerge on a long table land which stretches away out of sight, and bye and bye we lose sight of the sierras of Cordova.

The country now becomes simply a long plain, covered with scattered trees and brushwood and separate tufts of long coarse grass. The trees are mostly of an evergreen class, and are low and of but slender trunks. Sometimes we come to a clump of cactus of apparently great age, having trunks of over a foot in diameter and no leaves for some distance above the ground. This is the unvarying character of the scenery for many miles after leaving Cordoba: pampas dreary and almost useless for want of water, with scarcely a rancho or an animal to relieve the monotony.

The sun was blazing hot, and as we were obliged to keep the windows of the car closed on account of the dust, the journey was fatiguing and very trying. The temperature of the car could not have been less than 100 deg. Fahr.

Towards three o'clock in the afternoon the vegetation was left behind and we entered into the great saltpetre desert, named 'La Salina.' At first the ground is almost as white as snow, being covered with crystaline saltpetre, and there are a few stunted bushes scattered over the plain; but very shortly we find ourselves in an arid plain of sand, apparently as bounless as the ocean, which it much resembles. Fortunately the railroad crosses this desert in a narrow part, and we are soon back to the same class of land as that at the commencement of our journey.

About six o'clock in the evening we reach the station of 'El Recreo,' which is the termination of our first day's journey. Here we disembark and put up at the Station Hotel until the morning. This station is situated in the midst of a vast plain, far from any other habitation. The water for the use of the engines and for the hotel has been brought here at a great cost from a source nearly seventy miles away. How such a place can be called 'Recreo' it is hard to say, except on the 'Lucus a on Lucendo' principle.

At six o'clock the following morning we resumed our journey through a similar country and in a similar uncomfortable condition as on the previous day. About 12 o'clock, when nearing the station of San Pedro, we caught the first glimpse of the Cordilleras, called here the 'Sierra de Catamarca.' This is a lofty and grand range of mountains with snow-clad peaks, which were refreshing to look at from our hot and dusty carriages. We soon pass into the province of Santiago del Estero. The trees become closer together and lottier and the pasture much better. Troops of animals and ranchos become more frequent as we advance.

At length about four o'clock we reach the borders of the province of Tucuman, and a marked change takes place.

Instead of useless pampas, or barren deserts, we have now in view, verdant fields and fenced 'camps.' Animals are plentiful. The pasture is verdant, and sprinkled with flowers, then orange and lemon trees make their appearance, and last of all, broad fields of sugar cane.

Clearly we have reached the 'Land of Goshen,' the 'Garden of the Republic' and we soon forget in our delight all the toils and fatigues of the journey.

At six o'clock we run into the station of Tucuman, where a great crowd is awaiting the arrival of the train, in the mistaken expectation of seeing the Minister and party.

Our first impressions of this city are very favorable, but they must be reserved for another letter.

The general impression of the country between here and Cordoba is that there is a great similarity between it and a large part of Chile, whilst the desert of 'La Salina' is a faithful picture of the Great American Desert in the State of Nevada on the Central Pacific Railroad. We would hope that this resemblance might be completed by the discovery of mines like those which have made that arid track a valuable portion o the 'Silver State.'

Their Royal Highnesses the Prince and Princess of Wales left Brussels yesterday for Germany.

A telegram of yesterday's date from Cabul reports the continuance of fighting between Mahommed Jan and Hazaras. The news of the defeat of the former is doubted. Considerable excitement prevails, and it is reported that a rising is intended along the line of communications.

According to intelligence received at Calcutta from Assam, on the troops occupying Konoma and the adjoining villages, the Khels of Konoma tendered their submission to the British.

Our Constantinople correspondent has received advices from Teheran, according to which negotiations between the English and Persian Government still continue; but the Shah considers that the arrangements proposed by England press to heavily on Persia, and hopes to establish the limits of Persian territory on British Indian frontier, so as to establish, so to speak, joint interests with England.

Several rivers in the provinces of Alicante and Murcia have overflowed their banks, and inundated the towns of Alcira and Orihuela.

Easter Monday, favoured by beautiful weather, has been remarkable for a vastly-increased number of holiday makers. Everywhere the evidence of a general desire to seize the advantage of bright sunshine was apparent. In some parts there was more roughness of behaviour than might have been wished; but elsewhere, as in galleries, museums, parks, gardens, and such well-ordered places of resort and intelligent recreation, the conduct of the assemblage was irreproachable.

The Brighton Review was held under very favourable circumstances yesterday, and passed off most satisfactorily. It was stated by the Commander-in-Chief and by members of the Staff that the sham fight and march past were in the highest degree creditable to the Volunteer force.

Serious rioting occurred in Chester yesterday. Mr Malgarini, the Independent candidate, on attempting to speak in the theatre, was pelted with eggs and compelled to retire. He was even followed to the street, and there, it is said, maltreated by the mob.

At the Lambeth Police-court yesterday Alfred Michael Jacobs, alias Alfred Jacobs, alias Beba, was charged with bigamy and remanded for a week on bail.

Edward Fordham, stated to be an extensive house proprietor and member of the Borough of Greenwich Liberal Council of Five Hundred, was yesterday charged, at the Woolwich Police court, with having on several occasions, intimidated the complainant in regard to his voting at the forthcoming election. Mr Balguy adjourned the summons till after the election, in the hope that all angry political feeling would cool down.

Yesterday, being a Bank holiday, was a closed day at the Stock Exchange.

On Sunday the mails by the Teniers were delivered. The English papers are filled with electioneering news. The distress in Ireland has been so far alleviated that the Duchess of Marlborough in her letter to the Lord Mayor of London states there is no fear of a famine, although much misery still exists.

The following is a summary of the news:—

The report published by the *Journal des Debats* of the release of Col. Synge is confirmed. The Constantinople correspondent of the *Times* states that the Colonel has been released by the brigands, and has arrived in good health at Katerina.

The Czar, in proposing the health of the Emperor William, at a state banquet in the Winter Palace, in celebration of the latter's birthday, described him as 'My best friend.' His Majesty further said that he counted upon the maintenance and consolidation of the relations which have existed for more than a century past between the Russian and German peoples.

It is announced from St. Petersburg that stringent measures are being adopted against the Nihilists. A large number of suspected persons have been arrested, and frequent domiciliary visits are being made by the police. The St. Petersburg correspondent of the *Daily News* says the attempt against General Melikoff's life and the incidental circumstances arising therefrom have materially assisted to consolidate and assure General Melikoff's position, and there is some reason to anticipate that his labours will not be without some considerable measure of success in the great task he has undertaken.

The extraordinary session of the Provincial Assembly of Eastern Roumelia was opened on Monday by Aleko Pasha, the Governor-General, who in his speech on the occasion invited the Deputies to give careful consideration to the provisions of the budget, the projected railway line, the press law, and the proposal for the establishment of an agricultural bank.

Considerable distress prevails in the interior of Servia, owing to the failure of last year's crops and the continuance of inclement weather.

The American House of Representatives has referred to a committee two propositions, one introduced by a Democrat and the other by a Republican, relative to the projected Panama Canal. One proposition is for the House to call upon President Hayes to notify to the British Government the intention of the U. States to abrogate the Clayton-Bulwer Treaty, under which the latter country admitted Great Britain to a joint protectorate with herself over any means of communication between the Atlantic and Pacific oceans. The other motion is to obtain a declaration from the House that it is the duty of the Government of the United States to discourage any undertaking so franght with danger to the peaceful relations of that country; and that the President should summon an International Convention of Representatives of the South American States immediately interested in the question to consider what policy and measures should be adopted for their mutual safety and protection against any political influence which European Governments might attempt to exercise in the affairs of America.

The Federal Court at San Francisco has decided that the state law forbidding corporations to employ Chinese labour is unconstitutional.

St. Petersburg, March 23rd.

At a state dinner given yesterday at the Winter Palace in honour of the Emperor William's birthday, the Emperor of Russia, in proposing the toast of his Majesty, said—'The Emperor of Germany, whose birthday we are happy to celebrate today, gave me, on the occasion of the anniversary of my accession to the throne, renewed proof of his former constant friendship, by two letters—one an official communication which I lost no time in publishing, the other a private letter; both of which deeply moved me. I also entertain the sentiments and wishes expressed in these letters, and entirely count upon the maintenance and consolidation of the relations which have existed for more than a century past between the two peoples, for whose mutual welfare I drink to the health of the Emperor King, my best friend. May God protect him, and grant that he may live to celebrate his birthday for many years to come.' The Emperor spoke in French.

The Tralee correspondent of the Dublin *Express*, telegraphing on Tuesday night, says:—"At nine o'clock to-night some three or four hundred men, armed with sticks, entered the town from Farrenfore district, and marched in processional order, cheering for Hussey. They were met by The O'Donoghuites, and an alarming encounter ensued. Volleys of stones were fired by the rival parties, and after a good battle the Husseyites were forced to beat a retreat. Happily no one was hurt. When The O'Donoghue heard of the riot he, with his conducting agent, Mr John P. Broderick, proceeded to the Liberal Registration Club. Mr Broderick said Mr Hussey was responsible for this outrage, but they would teach his magisterial folly that he could not behave so with impunity, for the O'Donoghue's canvass showed that he would be triumphantly elected.—(Cheers.) The O'Donoghue said they had come down to see what fun was going on.—(Laughter.) It was very laughable that Mr Hussey should bring a party of hirelings from the neighbourhood in order to prove that he had the sympathy of the people of Tralee. Had he come in the daylight, they would soon make mincemeat of himself and his backers. Now that they knew what he intended to do they would give him notice that they were prepared for him. They would take care that Mr Samuel Murray Hussey did not get into Tralee without their knowing it. They would be glad to hear that he (The O'Donoghue) made a most successful canvass. Out of 170 only one said he would vote for Mr Hussey, and he would make him a present of that one.—(Laughter.) The windows of the Conservatives and Liberals are being broken by the Home Rulers as I wire.'

By command of the Queen a stone cross has been erected on the spot where the Prince Imperial of France lost his life. The cross bears the following inscription:—"This cross is erected by Queen Victoria in affectionate remembrance of Prince Napoleon Eugene Louis Joseph, Prince Imperial, to mark the spot where, while assisting in a reconnaisance with the British troops, on the 1st June 1879, he was attacked by a party of Zulus, and fell with his face to the foe.'

The Duke of Edinburgh has left for naval duties in connection with relief distribution on the west coast of Ireland.

A Dublin paper publishes, under reserve, the following telegram from London: "There is no truth in the report that Hartmann is about to leave for America. He is, in fact, soon to join the Nihilist Committee at Geneva. Two heads of this Committee and of the St. Petersburg Executive Committee held a meeting here last week, and have returned to Switzerland. Far from being discouraged by the failure of their last criminal attempt at the Winter Palace, secret information received at Scotland-yard shows that the Nihilist Committees are arranging a new attempt upon the lives of the Emperor Alexander and General Loris Melikoff. Orsini bombs, and other explosives, made here and in Switzerland are to employed. The Russian Government is aware of these new criminal attempts."

THE PALERMO RACES.

The race meeting on Sunday at the Hippodrome had everything in its favour, except the number of competing attractions for the public, such as the Cattle Show, the Tiro Nacional Review, &c. Nevertheless there was a full attendance on the heath, and the sport was good. The weather was simply delightful. In the afternoon the course became quite full-looking, as a great many visitors to the Cattle Show and Tiro Review came to see the closing events. Our special reporter sends us the following:—

1st Race—Criolla. One round.

Guardian 2°	1
Hirondelle	2
Cruz de Guerra	3

This race was won with great ease by Guardian 2°; a bad second. Cruz de Guerra close up.

2nd Race—Handicap. One round and a half.

Ibrahim	1
Lucifer	2

Betting, 10 to 7 on Ibrahim. Time, 1 round, 2 m.; 1½ round, 3 m. 6 s.

This race was a very hollow affair. On the fall of the flag Ibrahim went to the front—we think on sufferance, as Lucifer was pulling double; but after passing the half round it looked as if the alazan had it all his own way, as indeed it proved, as after passing the round Lucifer was seen to be in difficulties, and Ibrahim galloped home an easy winner by half-a-dozen lengths.

3rd Race—Velocidad. Half round.

Hirondelle	1
Cabito	dead
Pajarito	heat
Cruz de Guerra	3

In this race the knowing ones were all 'sold,' as the despised outsider Hirondelle, which did not carry anyone's money, took the lead at the start, was never approached, and won as he liked. Dead heat for second.

Time 1 min.

4th Race—Primera Preparatoria. Half round.

Blissful	1
Santa Rosa	2
Psychè	3
Guardian	4
Beatrice	5
Niniche	6

Betting even on Blissful; 3 to 1 against Santa Rosa, 5 to 1 against Psyche, and 10 to 1 against any other. Time 57 secs.

On the fall of the flag Santa Rosa and Blissful raced for the lead, which the latter obtained after about half the distance had been covered, drawing away and coming in an easy winner by two to three lengths; Santa Rosa second, and Psyche close up, third. Guardian a bad fourth.

5th Race—Particular. Half round.

Pehuenche	1
Rebelde	2

This was only a sham of a race, as Pehuenche took the lead and literally cantered the whole distance. Time 1m. 10s.

EDITOR'S TABLE.

The news of the day yesterday was our telegram from London announcing the new Prime Minister of England. 'Achilles himself' takes the double office of First Lord of the Treasury and Chancellor of the Exchequer. We shall probably know to-morrow who the other members of the Cabinet are. Some entertain a belief that the Foreign Office will be offered to Lord Derby. The news that Mr. Gladstone had taken the Premiership quite surprised many Liberals on 'Change, and staggered the Tories, as the general impression was that either Lord Hartington or Earl Granville would be the man, but Her Majesty has done wisely (as she always does) in calling the real leader of the Liberal party. Note.—Since writing the foregoing Havas's telegram has reached us.

The political news yesterday was important. It is said that General Roca has telegraphed to Don Enrique Moreno that the time has now arrived for a 'transaccion,' and that he is disposed to agree to one. Grand news, if confirmed.

Drs. Plaza and Zorilla, Ministers of Finance and Interior, returned yesterday from their railway inauguration trips. Several Congressmen came down with them.

The news from the West Coast shows that the war is approaching a finish. The people are flying from the environs of Callao to Lima, and desperate workmen's riots have occurred in Callao: many killed and wounded. The Chilian Admiral postponed the bombardment for a few days. In Lima the panic is terrible, and the Dictator has put a fixed price on provisions.

We have London papers by the R.M.S. Elbe to 30th March, for which we are indebted to Mr. Burton, the well-known and energetic news agent of Calle Piedad. There is not much general news, the papers being filled with election addresses and articles, and accounts of Easter Monday Volunteer Review at Brighton. Never before has the United Kingdom seen such a desperate electioneering struggle. The people seemed to think that the life or death of the nation depended on the issue, which we already know by telegram.

We received yesterday three most interesting letters from our Special Correspondent with Dr. Zorilla's railway inauguration party. We publish one of them to-day.

Sunday was one of the liveliest days we can remember in Buenos Ayres. The Cattle Show, the Tiros in Plaza Lorea and Palermo, the Races, the Gymnastics at the Politeama, the churches, the theatres—all had their respective crowds. Half the population of the city went to Palermo, to the Cattle Show, the Races, and the Bombero Review, and such was the rush that the Belgrano Tramway Co. had fix up cargo waggons to carry their passengers, and the Campana and Northern Railways had also all they could do. In the afternoon there was a Tiro march through the streets (the agreement in Feburary is all forgotten it seems) with colours flying, shouldered rifles, bands playing etc. General Arredondo is the new Commander in Chief of the Tiros.

Fashionable Calle Florida was startled from its propriety on Saturday evening last by a terrific gas explosion in Sr. Cobo's house, between Corrientes and Parque. It appears that there had been an escape of gas in the 'sala' for some days, and when an employè of the Gas Company went to examine it, a dreadful explosion occurred. The room was wrecked, mirrors, lustres, pictures, chairs and tables blown to minced smithereens, and the iron railing of the window sent clean across the street, where it smashed in its 'vis a vis' railing and did other damage. An aristocratic milliner's shop next door was also knocked into a cocked hat, and all the beautiful Paris 'ducks of bonnets,' veils, etc. irretrievably ruined. The gasman, the butler, who was with him in the room, and two female servants were much injured by the explosion, but it is hoped not seriously so. The alarm in the neighbourhood was very great for some time, and some people thought that the long threatened revolution had come at last. We received yesterday an interesting letter from a professional gentleman, on the subject of this sad accident, and will publish it to-morrow.

President Avellaneda's daughters met with a serious accident on Saturday while driving in a phœton from Adrogue to Temperley. One of the young ladies was driving and the horses got out of her controls and ran away. Some policemen rushed in front of them and happily stopped them, but in doing so the carriage ran against a tree and upset. We are happy to say that the occupants escaped with the fright and a slight scratch on the face of one of the ladies. We beg to congratulate President and Mrs. Avellaneda on the fortunate escape of their children.

We offer our best thanks to the Centro Industrial for placing our name on the Committee for celebrating the centenary of the introduction of the Printing Press into B. Ayres, and shall be most happy to co-operate with them in every way in our power.

Havas's telegram announcing the inundations in Ireland has come like a shock on the Irish community. Such a terrible and unusual calamity on the heels of the famine is indeed a desperate trial for poor Erin.

Dr Celotte of Chacabuco, has succeeded in breeding several 'gamas,' a feat which they have as yet been unable to achieve at Palermo Park, in spite of great care and attention to the beautiful animals of this species in the Gardens there.

The Conundrum season having closed for the *Standard*, the *Tribuna* has taken up the ball. We recommend the two arithmetical puzzles in its issue of Saturday to our numerous quondam correspondents in this line. A note of ten pats of a 'bust up' bank will be given for each solution.

Mr. Themistocles Obligado, the talented librarian of the Argentine Scientific Society, was inexpressibly shocked some evenings since at discovering, on his return from a post prandial stroll, that some advanced member of the P.P.C. had made away with a volume of Universal History, of great value. The thief has been so busy studying the work that he has not appeared in public since.

Parties who have not yet taken out their patentes should take a note that Friday next will be the last day for paying them without the unpleasant addendum of a smart fine.

Mr. Lista, the great explorer wants to go on another expedition to Patagonia, but the National Government has refused to give him a vessel till the winter is over, as he might get lost in the terrible storms which rage down there in the winter months. Good people are scarce, Mr. Lista, and the N.G. 'tiene razon.'

Hermann, the greatest wizard in this or any other world, will be here shortly. An enterprising 'empresario' has given him 300,000 francs (£12,000) for 48 seances in Brazil and the River Plate.

The Bolsa is becoming quite Parisian. Yesterday another improvement was started, in the shape of two 'Rings,' one for the licensed brokers and the other for the 'coulissiers,' as they are called in the Place de la Bourse. All sorts of 'bons mots' were made on the new arrangement. Patria Grande and Patria Chica have already been stamped by a witty English broker as the names of the licensed and unlicensed rings. One of the 'small country' men twitted a 'grande' with being one of the sheep in the 'chiquero.' 'Yes,' said the licensed man 'and you are one of the goats outside.' There were also numerous allusions to 'Rambouillets,' 'fine flocks' etc which produced great laughter.

The latest news from Asuncion is of a triangular row between the Senators, the Deputies and the Executive, as to which has the right to lay on like Macduff himself in the matter of Custom House taxes. It is seldom that South American 'powers that be' make any fuss about laying on taxes, it is taking them off (a thing quite unprecedented) that causes a 'fite.'

The gold market opened briskly at 30.70 all along the line, at the closing quotation on Saturday night, and operations were effected quickly and easily. About one o'clock prices momentarily dropped to 30.65, but immediately recovered themselves, and the bell rang on a stiff market of 30.70 for all dates, including May, June and July.

Cedulas entirely without animation. Only one sale of $15,000 for the end of the month at 85½.

Also a single operation in Roads and Bridges at 79½, showing a further firmness in this now favorite stock.

National Bank Shares only dealt in for the end of the month; opening at 58½, touching 58½ and receding to 58⅜.

Just before the bell rang, much amusement was caused by the unsuccessful attempt of a well-known French broker to vault over the new barrier. The consequences might have been serious, for the aspirant fell directly on his head; but the entire loss of a two hundred dollar Sommer's 'chapeau,' and a few bruises under the ear were the extent of the misfortune.

The gold sales were:—

The great feature in the Bolsa to-day was the handsome new outer ring, intended to divide the brokers, who alone have the right to approach the inner and official ring, from their clients outside. This is a reform which was greatly needed and will be much appreciated. This innovation caused several pungent and facetious remarks with regard to the 'Patria Chica' and the 'Patria Grande', and the well known distinction between the 'Sheep' and the 'Goats'. This is the same system as prevails on the Paris Bourse.

We hear of the completion of the sale of the well known "Bodega", belonging to Messrs Day & Peake, Calle Cangallo, for the lump sum of 90,000 m/c. A former employe reported to be the buyer.

The fearful gas explosion in the handsome house of Mr Cobo, in Calle Florida, which occurred on Saturday night, caused much comment on 'Change, and the opinion was very freely expressed that some competent Municipal officer should be appointed to supervise the condition of gas meters and piping. Though similar accidents are unfrequent, they are always disastrous in their consequences when they do occur. It is said that the whole edifice, a recently built, altos, mansion, will be pulled down, and reconstructed from the foundations.

We report a sale in auction yesterday of 600 squares land at Barracas for the splendid sum of 2,512,000 m/c, or say at the rate of 6½ millions per league. The ground is rented for 200,000 m/c per annum to various dairymen.

The French steamer Senegal sailed to-day, taking—

1300 bales wool
1600 sacks maize
2000/2100 dry hides

Also a great number of first class passengers amongst them

M Delpech and family
O Bemberg and family
R Lezica and family
C Servian.

Messrs Lamport and Holt have placed the steamer Teniers on the berth for Havre. She will leave on 6th prox.

Exchange. Little has been done, being packet day for the Senegal, but bank paper is quoted at 49½, commercial paper 49½ to 49⅝d. Francs 5.19 and 5.23 on France and Antwerp respectively. On Montevideo bills at 1 o/o premium are eagerly sought for, and even 1½ o/o premium is offered for small amounts.

We note the following produce sales, viz,

5,000 salted ox hides from Salto, 67 lbs, at reserved price.

10,000 do from Paysandu, 57 lbs, do

2,000 salted cow hides from Gualeguaychu, 51 lbs, at 53 rls.

Bullrich's live stock auction, as usual, proved a great success; splendid prices having been fetched:—

A splendid imported ram, Gambetta, brought 20,000 m/c.

A Rambouillet ram from Oliveira's Brothers brought 21,000 m/c.

Five Rambouillet ewes from Oliveira's Bros. brought 5,000 m/c each.

Several ewes from Amaral's cabaña in Moron were sold at from 2,300 to 3,000 m/c each.

Several rams from Guerrico's estancia El Oratorio fetched from 3,000 to 3,500 m/c each.

At after hours the gold market showed no noticeable variation. Sellers of small lots of cash gold at 30.70, but buyers at that price for all future dates.

The important political news was that the Nat. Chambers unanimously elected Dr. Quintana a President, and that he then, in virtue of his office, nominated the 'Comision de Poderes,' who ratify for annual the elections of the Presidential Electors throughout the Republic, to consist of 3 'Conciliadors' and 2 'Roquistas.'

At afterhours the following sales:—

The European cable seems to be working splendidly, we heard on 'Change of messages arriving from England, in 1½ hour, which means that the message beat the sun in speed by 2 and a half hours.

Telegrams from San Vicente announce arrival there of the R.M.S. Minho on the 22nd inst. all well on board. She left this on the 7th of this month, and Montevideo on the 8th. The R.M.S. Elbe arrived at Montevideo yesterday morning and will be here to-morrow. She brings for this the following passengers—

Rev. T C Kemp

Hector Mackern
Mon. G Monguillot

Mr and Mrs Coca and 3 children

Captain F S Mezo
Evaristo Gomez Sanchez and 2 Sons

And 23 third class passengers.

The following land sales are reported from the South:—A square league of land at Tapalque for $142,000; buyer Mrs de Illescas. Seven chacra lots at 5,000, 7,000 and 8,000 pats each; buyers Mrs Bazan and Messrs Torronlegui and Maidana.

It was said on 'Change to-day that Dr Herrera y Obes will be the new Uruguayan Minister to this Republic. Dr Herrera y Obes is well known and much esteemed in this city.

Advices received to-day from Santa Fe report great preparations at all the colonies and farms for sowing the next crop of wheat. The farmers intend this year to abandon the system of sowing the wheat in chacras, and will adopt the United States plan of sowing leagues at a stretch.

The sale of the Echeverria estancia and saladero at Durazno, B. O., was announced to-day. Price reserved.

The Custom House receipts at B. Aires since the 1st instant now reach 1,000,000 pats, and there are still four days to run. This decidedly shows well.

The advices from Montevideo this morning report a species of political scare there on Saturday owing to a rumour that Colonel Latorre had suddenly returned and was at his quinta, but it proved a bola; the ex-President is at Cerro Largo and is not going either to Brazil or Europe. Business continues rather dull down there, except in Catalan wines, in which there is some stir, and holders look for a sharp rise. 2,000 dry hides were sold for the United States at reserved price.

The newspapers by the R.M.S. Elbe came up this morning by the steamer Comercio. The latest London date is 30th ult. (Easter Tuesday) but the previous day having been a holiday, there is not much monetary news.

Judge Albarracin, of the Federal Court, has recently given a decision which establishes jurisprudence on the subject of cheques. The defendant, the Central Argentine Railway Co.' sought to bar all further claim of a shareholder who had received payment of dividends in currency by asserting among other counts, that the plaintiff had accepted a cheque in currency September 1875 for his dividends and thus that the transaction was closed. The judgment laid down the rule that a cheque is but a continuity of guarantee given by the debtor to the creditor, and in nothing alters the original character of the obligation; the defendants further alleged that they had paid gold to the London and River Plate Bank, and if the plaintiff or shareholder had applied in time (which was before 'curso forzoso') no claim would lay, so that the plaintiff by negligence had forfeited all right to demur. The Judge held that since no time was specified in the advertisement for payment of dividends, it was optional on the shareholder to collect at pleasure. Judgment with costs, interests and costs against the defendant.

Messrs Ebbeke and Dickelmann, the well known city auctioneers, sold on Saturday the steamer Rio Uruguay, anchored at Campana, for 9,800 pats. (240,000 m/c.); the basis of sale being 6,324 pats. Messrs Mayor & Bruge, buyers.

A friend in Dolores informs us that the Southern Railway extension works to Ayacucho, under Mr Hume's able direction, are being pushed rapidly forward. The weather there for the last ten days has been excruciatingly cold, but the works go ahead and will be finished well in time for next produce season. The town of Ayacucho shows a great stir in the building line, under the stimulus of the railway extension.

Messrs Bunge & Co.'s valuable report to hand per Iberia, dated Antwerp, 25th March, gives enhanced quotations for the generality of River Plate produce. Out of 4,900 bales River Plate Wool, offered in auction at Havre, 4,000 bales were sold. General results must be deemed satisfactory, since during the auction prices hardened 5 centimes, closing fully 25 centimes higher than those current in January. Sheepskins are scarce, and prices in seller's favor.

The produce circulars in this market show the growth of the country's trade; they are now twice their former size, and it is impossible to do more than extract the main points of their remarks, which are always, be it said, well to the point. Messrs Gandolfi & Moss report as follows:—"All business has been dull during the fortnight, owing to the political situation which, for the moment, does not promise a pacific solution; everybody is waiting on events. The stock of imports is small, and produce for export is also scarce, owing to the great rush made by exporters to rush off the wool, in response to the good news from Europe. The highest prices in the memory of man have been paid this fortnight for wools, and the deposits are cleaned out. Wine has risen and sugar fallen, the supply of the first being short and the latter excessive. The memoria of the Provincial Bank shows that establishment to be in a magnificent position and better than ever able to rule the gold market, whether civil war comes or not."

Messrs Rams & Pistraneva say:—"The political aspect is every day worse, but merchants have faith that at the eleventh hour our public men will have a patriotic inspiration of common sense which will save the country. The approval of the March elections by the Chambers has given great satisfaction, as it will enable the Executive and Legislature to work in harmony for the future. Business in all branches is dull, but if the political horizon clear up there will be a great revival."

Mr Hermann Altgelt, in his valuable produce circular, says:—

"Wheat—Sales from deposit and to arrive from the Western camps, have been even larger this week than last; and for this reason more or less 13,000 fanegas of 9 ar. have been sold at prices varying from $245 to 250 m/c. At the Once market small lots disposed of, on arrival, at from 235 to 267 per fanega, according to class. These high prices, in face of the Chilian wheat now being offered, are due to the fact that flour from our native wheat, after baking, gives 28-30 o/o increase; whilst that of Chili yields only 22-25. In consequence millers have bought largely for deposit during last fortnight; thus causing a rise of from $8-10. From the rivers small arrivals, and it is probable that the bulk of existing stock in Rosario will be sent to Entre Rios and the colonies adjacent to Santa Fe, where the crops have been scanty. From Montevideo no importation, prices prohibiting. From Chili 4 cargoes en route (expected to arrive about middle of May), and 4 more loading. One cargo sold to arrive, in bags, at $246 m/c per 9 arrs. Candeal wheat likely to rise. Flour firmer, Buenos Aires 42 to 43, Rivers 39 to 40, Mendoza and San Juan 36 to 38. Maize—crop abundant and good quality. Exports on a small scale already commenced. Hay weaker on account of large arrivals, and some shipments of Mani at 80 m/c, f.o.b. without bags, for export."

It Mixes Freely with Cold Water, without Preparation.
It is a Domestic Disinfectant.

Copy of Analysis by Professor Kyle.
National College, Buenos Ayres, November 29th 1879.
Messrs. M. Forrester & Co., Buenos Ayres.
Gentlemen—I have at your request made a careful examination of the sample of JEYES'S SHEEP DIP you handed to me on the 18th inst. I find it to be a well made preparation of Phenols and other Tar products, combined with soap, retaining the liquid form and easily miscible with water, from which it does not afterwards separate.
The proportion of active ingredients amounts to rather over 50 per cent. it is free from Mineral Poisons and from Caustic Alkalies. In my opinion it is well worth the attention of Sheepfarmers, and will be found by them to be convenient, safe, and I do not doubt, very efficacious as a Sheep Dip. From the readiness with which the preparation can be mixed with cold water it ought to prove most acceptable as a domestic disinfectant, being more convenient than crude Carbolic Acid or the disinfectant powders so frequently employed.
I am, Gentlemen, your obedient servant,
JOHN J. KYLE, Professor of Chemistry.

Extracts from Testimonials
From Mr. Alex. Stewart, Bailiff to H. D. Pochin, Esq. Rodneut Hall, Wales—
"The Sheep Dip is the best that I have ever used. I have not seen a sing'e Maggot on any of the Sheep since we used it. The wool looks beautiful, and to all appearance improved in quality. I feel satisfied it will be an invaluable boon to our large Sheepfarmers in the Colonies, and it only wants to be appreciated."

Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Muy importante para el Publico.

Poseido de la mayor ansiedad, y con el debido respecto al Publico, apelo muy encarecidamente a toda clase de personas, para que se dignen prestarme su apoyo, dando a conocer como tales las malas y aun peligrosas falsificaciones de mis medicinas, hechas principalmente en Nueva York, de que tengan conocimiento.

Especuladores nada escrupulosos adquieren esta broza a un precio sumamente bajo, y la venden como si fuera mis genuinas pildoras y ungüento, fogrando con este reprobado trafico una enorme ganancia.

Ninguno de los expresados medicamentos son genuinos, si no llevan en el fotulo de cada bote y caja la inscripcion siguiente: Holloway's Pills and Ointment, 533, Oxford Street, London, y el sello del Gobierno Britanico, con las palabras Holloway's Pills and Ointment, grabadas en el.

Las personas que tengan la bondad de informar de algun traficante que venda las enunciadas medicinas falsas, seran muy bien remuneradas, y nunca, ni en circunstancia alguna, se publicaran sus nombres.
